

ANAYOCHUKWU JAMES

I am a proactive and motivated Software Engineer with 6 months of experience, specializing in Java and RESTful APIs for building robust web applications. I've successfully contributed to various projects, such as a Facebook clone, quiz exam platform, and dynamic fashion blog. My expertise lies in creating clean, maintainable code and user-friendly interfaces, aligning with industry best practices.

WORK EXPERIENCE

Decagon, Lagos- Software Engineering
May 2023 – present

- A member of a Team that developed an Event Tracker Web Application
- Integrated external API and third-party libraries to enhance application functionality and user experience
- Participated in code review to ensure code quality, maintainability, and adherence to coding requirement
- Implemented RESTful APIs using Spring boot, enabling seamless communication between components of the application.
- Utilized Spring Data JPA to manage the persistence layers for Data retrieval and manipulation from a Postgres database.
